Deutsche Bank NZ Group has no aggregate credit exposure to an individual counterparty or group of closely related counterparties which equals or exceeds 10% of Deutsche Bank Group's equity.

Ranking of local creditors in a liquidation

DBAG NZ is a branch of Deutsche Bank AG and not a separate subsidiary company. Therefore, the rights of creditors located in New Zealand in Insolvency Proceedings of Deutsche Bank AG would be governed by the German Insolvency Act. Subject to all claims of secured creditors and creditors mandatorily preferred by law, all unsecured creditors of Deutsche Bank AG would be ranking pari passu without any distinction between domestic or foreign creditors. The institution of Insolvency Proceedings requires a reason for instituting such proceedings, i.e. (i) illiquidity, (ii) imminent illiquidity or (iii) over-indebtedness. The petition of initiation of Insolvency Proceedings over Deutsche Bank AG's assets can be filed by the German Federal Supervisory Authority, only. No such petition has been filed.

Deutsche Bank Group operates in 75 countries. Therefore, DBAG NZ is unable, to disclose whether there are any material legislative or regulatory restrictions of all countries in the world other than Germany which subordinate the claims of any class of unsecured creditors of DBAG NZ on the assets of Deutsche Bank AG in such a country in Insolvency Proceedings of Deutsche Bank AG.

In the opinion of DBAG NZ, the closest available alternative to disclosing whether there are any material laws or regulatory restrictions of any other country which subordinate the claims of any class of unsecured creditors of DBAG NZ on the assets of any other class of unsecured creditors of Deutsche Bank AG in Insolvency Proceedings of Deutsche Bank AG is to disclose that:

- as at 31 December 2007 approximately 25.3% of the total assets of Deutsche Bank AG were located in Germany and approximately 0.15% of the liabilities of Deutsche Bank AG were located in New Zealand; and
- unsecured depositors of DBAG NZ would have the benefit of a Deposit Protection Fund operated by the Federal Association of German Banks, of which Deutsche Bank AG is a member. The fund protects all deposits with a member bank by non-banks irrespective of the location of the bank with which a deposit is being made, up to a protection ceiling of 30% of the core capital and supplementary capital (to the extent that supplementary capital does not exceed 25% of core capital).

In the opinion of DBAG NZ these facts indicate that, if:

- there was a legislative or regulatory restriction of another country which could have the effect of subordinating the claims of any class of unsecured creditors of DBAG NZ on the assets of Deutsche Bank AG located in that other country to those of any class of unsecured creditors of Deutsche Bank AG in Insolvency Proceedings of Deutsche Bank AG;

- (d) anyone alleged that such a law of that other country should be applied in preference to a contrary law of Germany in Insolvency Proceedings of Deutsche Bank AG; and
- (e) the court of that other country accepted that allegation,

any effect on unsecured creditors of DBAG NZ would be unlikely to be "material" as that term is defined in the Registered Bank Disclosure Statement (Off-Quarter - Overseas Incorporated Registered Banks) Order 2008.
